"

Il nonno mi accarezza i capelli .

Mi racconta che da piccolo a lui piaceva ballare

ma doveva occuparsi dei suoi fratelli

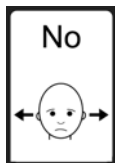

quando i genitori erano al lavoro nei campi .

Ascolto con attenzione le sue parole casa amor mano e mi viene spontaneo chiedergli :

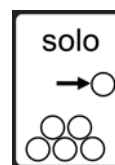

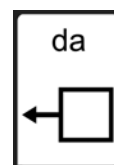

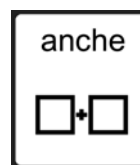

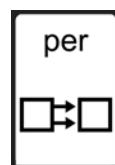

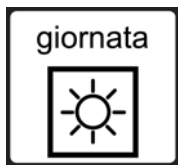

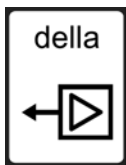

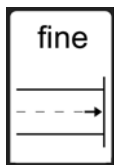

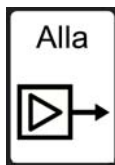

" Quindi tu hai abbandonato il tuo sogno ? "

Il nonno sorride e dice :

W

Un libro in simboli, oltre alla scrittura alfabetica, associa ad ogni parola delle immagini.
Ci sono vari sistemi simbolici, noi abbiamo scelto di usare ARASAAC che è un sistema simbolico con licenza Open Source.

Tutti possono leggere questo libro perché sopra ai simboli c'è anche il testo alfabetico.
I simboli ad esso associati permettono l'accessibilità anche a chi non è in grado di leggere il testo alfabetico.
Per questo è importante segnare i simboli mentre si legge il testo.
In questo modo si rende evidente l'associazione verbale/testo/simboli.

Altri libri in simboli si possono trovare sia nelle librerie che nelle biblioteche.
